Wedding Chimes - County Business Caledonians Have an Outing -Police Court Notes.

Yesterday morning two young men arrived in Ogden on the Union Pacificfreight train from the East and tell quite a startling story of an experience which they had while riding in a cattle car from Sherman Hill, Wyoming to Ogden. The name of only one of the young men could be learned, it is Harry Moss, who is about 21 years of age, and says his home is in Monticelle, Illinois, the other young man is from the same place. Young Moss says their parents are wealthy people, his father ex-mayor of Monticello, and that a few weeks ago his chum had some money left to him, and the two decided to see some of the country and started out with the intention of going through to the coast, but did not want to pay any railroad fare, as blind baggage riding seemed to have particular fancy for them, so they only took enough money with them to pay for their meals and a dollars for an emergency. through allright to Sherman Hill nd at that place they got into a cattle car with three other men, and went to sleep. At Morgan station they were awakened by the entrance of three other men who struck a match, It must have been about three o'clock in the morning, and pulled guns and demanded of the men in the car that they hold up their hands, which they did, and were marched to one end of the car where the robbers went through their pockets stealing a gold watch and about \$4 in silver from young Moss, his chum was clever and dropped his gold watch down his pants leg into the straw on which they were sleeping. Homecoming and Departing Missionaries-Light Crops.

Special Correspondence.

Fairview, Sanpete Co., June 25.—Last Tuesday Elder O. K. Hansen of this place arrived home after having filled a mission to the Northern States for about two years and a half, laboring in Wisconsin as a traveling Elder one year and ten months, and for the last seven months presided over the Iowa conference. Elder Hansen was welcomed home by many warm friends, and in the evening a large assembly gathered at the home of his parents and a very appropriate program, consisting of songs, music and speeches, was carried out, interspersed with the passing

LIGHT CROPS.

The weather here continues very warm and dry. The first crop of lucern is harvested, a great deal of it is very light, for the want of moisture, and if we do not get rain before long there will be no second crop in many places, and the grain crop will be under the average.

Our woolgrowers have been samewhat disappointed in not getting the price for wool as they had expected and even some have been glad to receive considerable less than what they had first been

EUREKA.

Mike Harrington Severely Injured by a Fall in a Mine.

Special Correspondence. Eureka, June 24.-Mike Harrington, a miner employed at the Centennial-Eureka mine, met with a painful acci-dent, about 7 o'clock this evening. While at work on the 300-foot level at the mine, a plank that he was standing on gave way, and he fell a distance of eight feet, striking on his head on some rocks. While the wound is not considered serious, he received a very bad cut on his head, and complains of a severe pain in his neck. Mr. Harrington is a man of about 200 pounds, and such a fall would give him quite a shock.

HEBER.

Non-Partizan Schools - Hot Wave and Drouth-Other News.

Special Correspondence. Heber City, Wasatch Co., June 25 .-Last Saturday's non-partisan conven-tion nominated H. M. Aird for county superintendent of schools. Sunday evening last the Seventies had a very good program in the Stake tabernacle. Prof. Robinson from the B. Y. Academy rendered a fine solo with an accompaniment on the organ. Prof. Robinson is going to teach a class in music, and most of the Heber choir will attend.

HOT WAVE.

Heber is experiencing the hottest spell of weather since 1892. On August 2 of that year, the mercury touched 100 in the shade. Last Friday the same ting very low; streams are about as low now as they are generally about the first of August.

Plums and peaches will be plentiful if the water does not fail.—I. J. Elkington. Nephi, Juab Co.—Another hot week.

grees Reached in Many Places.

GOOD CROP OF LUCERN

Rye is Ripe and Cutting Has Commenced Sugar Beets Doing Fairly Well-Water Getting Searce.

Weekly Crop Bulletin, Salt Lake City Utah, June 26, 1900 .- U. S. department of agriculture, climate and crop bulletin of the weather bureau, Utah section, for the week ending June 25, 1900:

The week was unusually warm. Over the northern half of the State the average daily excess of temperature was about 10 degrees, but for the southern half the excess was probably a little less. Maximum temperatures of 100 degrees occurred in many localities; the highest temperature reported was 106 degrees at St. George on the 20th, Light sprinkles of rain occurred in Summit, Wasatch, Sanpete and Grand counties, but elsewhere no rain fell. Ira rigated crops did fairly well. The wea-ther was favorable for haying and at the close of the week the first crop of lucern was nearly all housed; the crop is of good quality and the yield about the average. Corn is growing nicely. Rye is ripe and its cutting has com-menced. Sugar beets are doing fairly well. Currants and raspberries are ripe Water is getting very scarce, but there is still sufficient for irrigation pur-poses. In Washington county the first crop of figs has been gathered, the second crop of lucern is being cut and early peaches are becoming plentiful,

CORRESPONDENTS' REMARKS. Snowville, Boxelder Co.-Very warm, the maximum temperature reaching 95 degrees the middle of the week. Lucern cutting has commenced, and the

yield is quite large. Irrigated crops are looking well. Dry farm crops will be a failure unless rain comes soon .- J. Rob-Millville, Cache Co .- Hot and dry. Watered crops are doing well, but dry land crops are drying up. The first crop of lucern is about half cut, and the yield is heavier than last year.—John

Mendon, Cache Co.-Very warm, the temperature reaching 104 degrees. Winter wheat is beginning to burn from the want of water, Irrigated grain is looking well. Lucern is being cut. Sugar beets are doing well.—M. Bird.

Meadowville, Rich Co.-Very warm. Dry farm grain is a total failure and irrigated grain and lucern are making no growth on account of the excessive heat,-J. S. Moffat, Laketown, Rich Co .- Hot and dry. A ed rain would do much good. Wheat

is heading and lucern mowing has begun.—G. G. Weston, Harrisville, Weber Co.-The week has been hot and sultry with some high winds. Crops are doing well. crop of lucern made a good yield and is all housed. Sugar beets, tomatoes and fruits are doing well. Water is still plentiful.—Peter Later.

from 96 to 99 degrees the middle of the week. Most of the first crop of lucern has has been housed. Currants, raspberries and new potatoes are on the

Petersen, Morgan Co.-The maximum temperatures have ranged between 95 and 100 degrees. Spring what is in head. Lucern, which is being cut, is a good average crop on the lowlands, but light on the uplands. Potatoes and fruits are doing well. Squirrels are doing great damage.—Ell Whitear. Kaysville, Davis Co .- Very hot and

Water is getting scarce. Considerable grain is ripening prematurely, and the promised yields will be greatly Haying is about completed; the yield has been fair and the quality good. High winds on the evening of the 22nd did some damage to heavy grain.—J. W. Gailey,
Big Cottonwood, Salt Lake Co.—Very

warm, Irrigated crops are looking well, The cutting of the first crop of lucern has been completed. The fruit crop promises to be good.—John Sutherland. Miller, Salt Lake Co.-The week has been very hot with considerable wind, which has blown off some of the fruit, Irrigated crops are generally looking well, but dry farm crops are nearly all dried up. The first crop of lucern is nearly all housed.—John Morgan.

Pleasant Grove, Utah Co.—The week
has been very hot. The blazing sun and dry weather are beginning to affect the crops seriously. Lucern and sugar beets are the first crops to show the effects of the drouth. The condition of small

grain crops is below the average. The fruit crop is just medium.-J. E. Gam-Payson, Utah Co.-Very warm, the maximum temperatures ranging between 94 and 100 degrees. New potatoes green peas, and raspberries are on the market. Corn is growing nicely. Sugar beets are in poor condition on account of the drouth. Rye is being harvested. Fall wheat on dry lands is dried up and a total failure. First crop of lucern is cut and stacked; the drouth will pre-vent the second cutting. The supply of water in the reservoir is being used

to its full capacity.—J. D. Stark. Chester, Sanpete Co.—The past week has been very hot; part of the time cloudy with very light showers. Farmers are busy with lucern, which will be an average crop where it has been watered. Beets are looking fairly well and will generally make a good crop.

Joseph Beck. Manti, Sanpete Co.—A good growing week, hot and dry ending with showers in the mountains which increased the flow of streams. Some which has not been sufficiently irrigated on account of lack of water, will be a failure unless it rains soon. Lucern is being harvested in good condition. Green peas and new potatoes are ready for the table. Straw-

berries are at their best.-A. W. Bessey Tooele, Tooele Co.-Nearly all of the first crop of lucern is cut and stacked New potatoes are being dug for family use. Strawberries have been small and scarce; cherries a full crop; raspberries are just beginning to ripen. Water for irrigating purposes is getting scarce.
